

## Task

- Write metadata for the data set and experiment described below. Submit your metadata file to this github repository.
- Imagine you are marking for BIOL 1001. List the necessary elements of the metadata to which you would assign marks.

## Experiment

The large cube of potato in beaker A has exactly the same total volume as the 8 small cubes of potato in distilled water in beaker B. The experiment is performed with 0% (Distilled Water), 0.9%, 2%, and 5% NaCl in the beaker.

## Data

Treatment	Concentration (% NaCl)	Final Weight (g)	Initial Weight (g)
A	0		
B	0		
A	0.9		
...	...
